

# What is a virus, and how does it make you sick?

## Answer sheet

**1) Number of cells in the human body:**

**2) (Red) blood cells live for about:**

**3) Skin cells live for about:**

**4) A virus is \_\_\_\_\_ of an inch.**

If you have MS Word on your computer, you can open the lesson sheet and type your answers right on the sheet. Then, if you want, you can send it to me as an email attachment and I will read what you wrote. If you do not have MS Word, you can download and print the PDF version. You can write the answers on the paper, but I won't be able to see what you wrote. Don't worry about that. Either way is okay.
