

Use the patterns on the next page to make the pieces for your tensegrity sculpture.

If you are using the cardboard from a cereal box, you will need 6 “J” pieces, 3 “L” pieces, and 36 little $\frac{3}{4}$ ” square braces.

If you re using corrugated cardboard from a shipping box, you do not need the “L” pieces and will need only 24 $\frac{3}{4}$ ” square braces.

In either case you should make the top and the two base pieces out of corrugated cardboard.

If you are using corrugated cardboard,
you do not need to make the 3 extra "L" pieces
